

Candy Crush Detailed Directions

1. Download the game
 - a. Git clone
 - b. Open project folder
 - c. Go to sketch library

File Edit **Sketch** Debug Tools Help

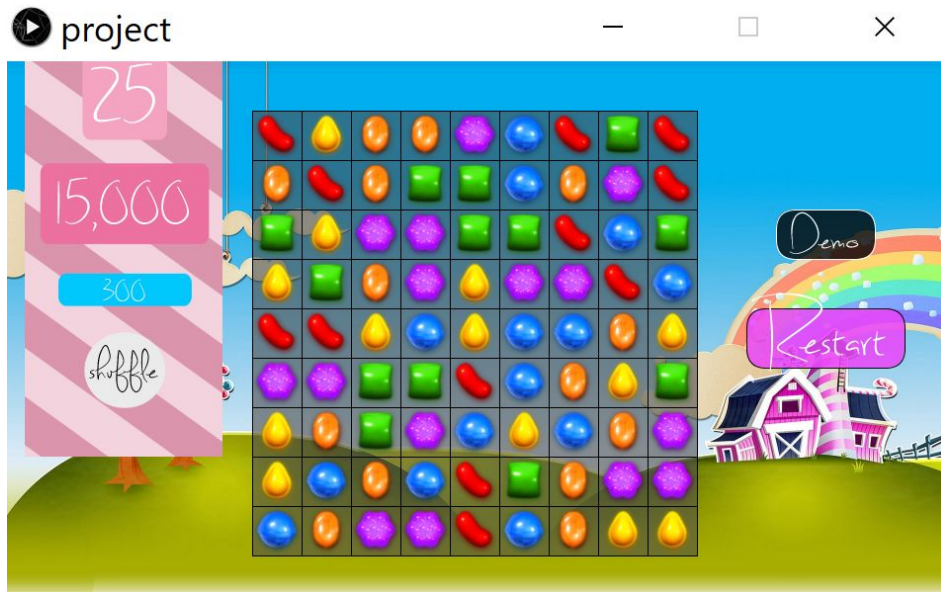

- d. Download Sound

- e. Press Play

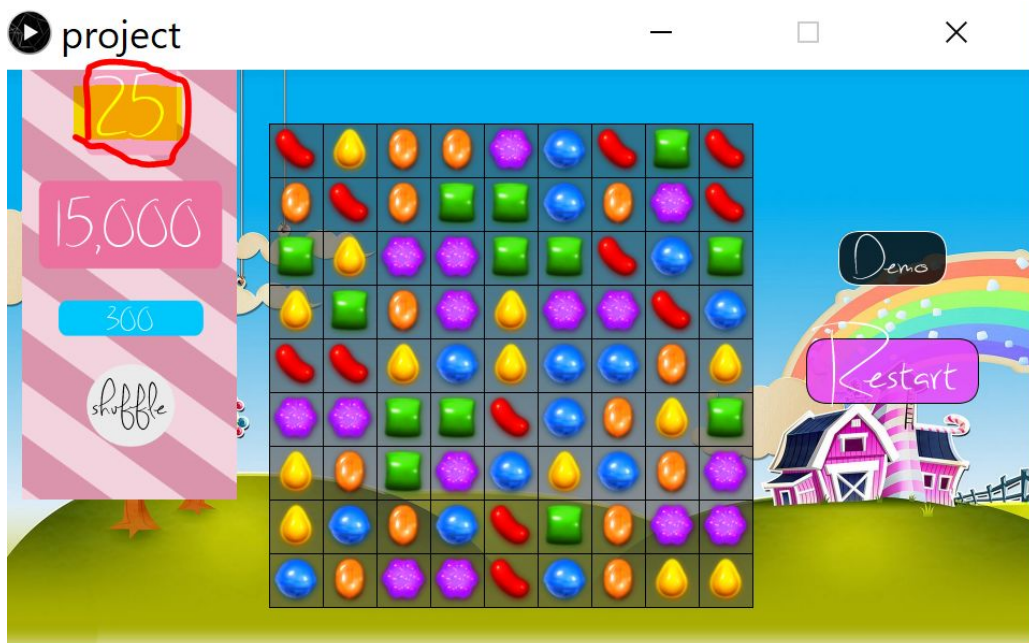

2. Listen to the music

- a. The game might take 1 to 2 seconds to load. You can listen to the music while you wait. You should be at the screen shown below

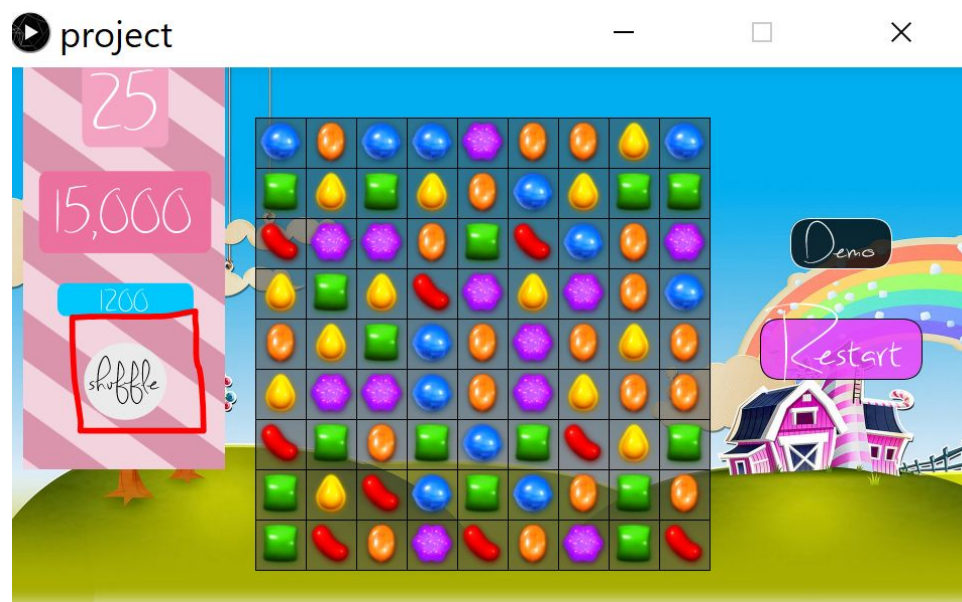

3. Begin Playing!!! And things to note

- a. Moves: Swap two candies to make a match to make a move. Your moves will always be on the top left corner. Make sure you hit the target score in that many moves!!!! (Swapping by holding the mouse down will not work)

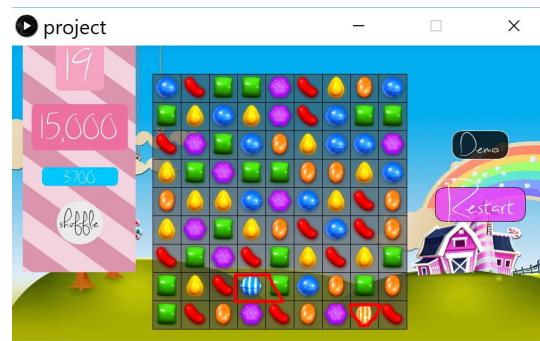

- b.
- c. Shuffle: If cannot spot any moves, you may press the shuffle button. Enjoy the visual effect, but you will lose 5 moves for doing so. It will also make

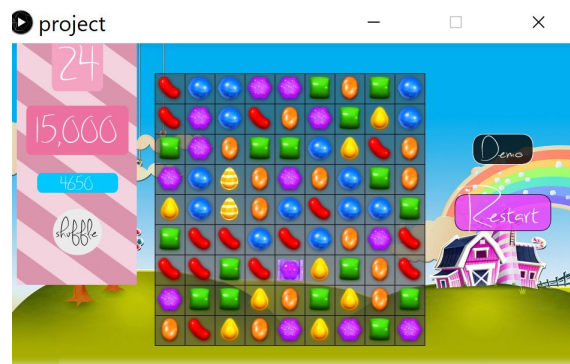

our distinct pop sound when you press it.

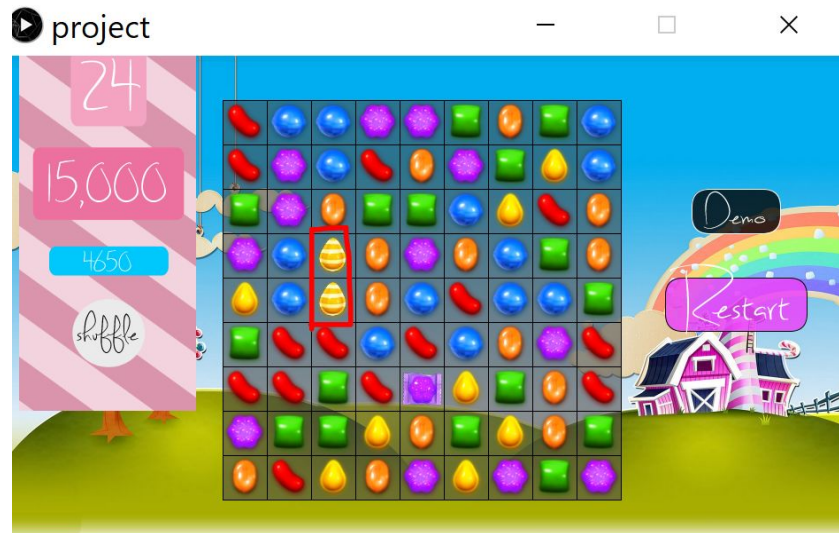

- d. Special Candy1: If you make a row of 4 candies. You get a special striped candy. This candy is given to you randomly, and will either pop all the candies horizontally, or vertically based on the direction of the stripes.

- e. Special Candy2: If you make a chain of 5 or more candies. You get a special wrapped candy/ When this candy is popped, you get a 3x3 bomb.

- f. Special Candy3: If can swap two specials to pop both of them!!!!

- g. Points Calculator:

100 points for each candy popped by a special candy

300 points for each 3 in a row

500 points for each 4 in a row

150 * (link) for each link 5 for more

- h. END GAME (Change my mind: the Taylor Swift version is better)

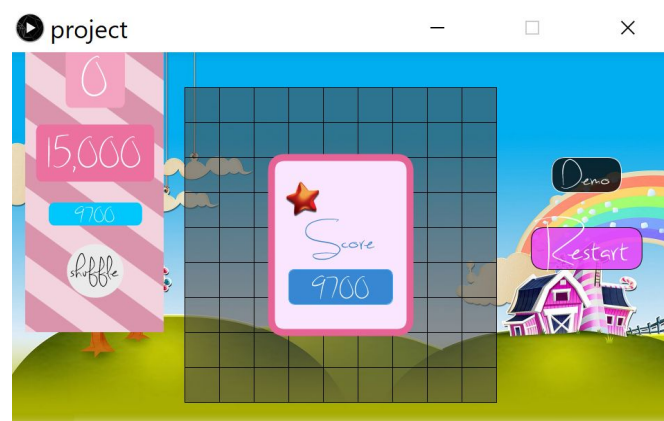

It shows the score. It also awards you a star for every 5000 points you obtained.

5000+: One star

10000+: Two stars

15000+: Three stars

Technically you can get 0 stars if you obtain less than 5000 points, but it is actually hard to get less than 5000 points, so I wish those luck that attempt this.

- i. Restart: Not all good things have to come to an end. Press Restart to play all over again.
 - j. Demo: It lowers the amount of colors shown down to three. This makes it really fun to watch. O.O
- 4. Known Bugs
 - a. Very Rarely: Special Candy make not trigger, due to the formation of another Special Candy.
 - b. Sound make look like it's out of sync
